

FERDINAND J. COLICO

IT Support & Service Desk Professional

595 MH Del Pilar St., Bulilan Sur, Pila, Laguna | colicoferdinandj@gmail.com | 0960 833 9441

PROFESSIONAL SUMMARY

Information Technology graduate (BS IT, Web and Mobile Development) with hands-on experience from a five-month OJT at the Bureau of Fire Protection, providing IT support across hardware, software, networking, and CCTV systems. Redesigned the station's network layout and built a personnel profiling system to streamline daily operations. Comfortable working directly with staff and clients to troubleshoot issues and resolve requests. Looking for an entry-level role in IT Support, Service Desk, or IT Operations.

TECHNICAL SKILLS

- **Networking:** Network configuration, troubleshooting, LAN design, wireless-to-wired migration, Cisco Packet Tracer
- **IT Support:** Hardware & software troubleshooting, printer support, CCTV systems
- **Programming:** HTML, CSS, JavaScript, Python, Flask, TailwindCSS
- **Database:** MySQL
- **Tools & Platforms:** Git, GitHub, VS Code, XAMPP, Microsoft 365, Google Workspace

WORK EXPERIENCE

IT Staff (On-the-Job Training) February 2026 – May 2026

Bureau of Fire Protection

- Provided IT and administrative support to BFP staff and clients, troubleshooting computers, printers, internet connectivity, and CCTV systems to keep daily operations running smoothly.
- Redesigned the station's network layout and migrated PCs from wireless to wired connections, improving network stability across the office.
- Designed and built a personnel profiling system to help the station organize and manage personnel and operational records more efficiently.
- Assisted applicants with fire safety-related applications, answered follow-up inquiries, and supported the processing and release of certificates.
- Received, organized, and processed application-related documents, ensuring client requests were handled accurately and on time.
- Diagnosed technical issues and delivered practical fixes suited to the station's available hardware, software, and network environment.
- Assisted with editing and preparing content for the station's campaign and informational posts.
- Collaborated with BFP personnel to resolve technical concerns and improve day-to-day workflows.
